Ho.Re.Ca. center

In 2012 Union Drvo opened first Ho.Re.Ca. center in Balkans and complete offer is now shown in beautifully constructed and designed space on 2000 square meters.

Company Union Drvo specializes in furnishing all kinds of Ho.Re.Ca. facilities in a turn key way: project, make, deliver and install.

Union Drvo is specialized and has all capacities for furnishing even the most demanding Ho.Re.Ca. objects.

History

Company was established in 1996 in Belgrade. From small showroom in Vladetina street, where business was brought to light by three people sure of their vision, Union Drvo moved to Dunavski Kej. Through many years it has gathered numerous clients who are still faithful to the company.

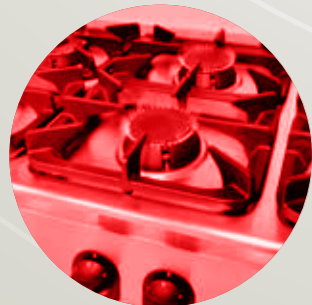

In 2007 Union drvo bought Tehnooprema Inženjering which existed since 1949. Tehnooprema was a giant in Ho.Re.ca. business in old Yugoslavia.

UNIONDRVO

Show Kitchen

Show Kitchen is part of Ho.Re.Ca center. It is a demo kitchen where Union Drvo is making presentations of its products, all together with top culinary and pastry chefs.

Kafemat, Novi Sad

Kitchen equipment

Apart from production of neutral elements for professional kitchens, Union Drvo offers Thermo and Cooling equipment, dishwashers and laundry systems for professional use, small appliances and machines, as well as small inventory (inox, glass, porcelain, cutlery, textile).

Production

Union Drvo has bought 3000 square meters factory in Svilajnac in 2015 and expanded the production of massive wood and upholstered furniture. The idea of this widening is to be able to answer to all special request effectively, fast and in high quality.

Project bureau

Union Drvo has its own project bureau and experts in domains of construction and design as well as architecture, so it is able to provide project to everyone interested. To its costumers company always offers optimal solutions concerning quality, design, deadline and height of investment, for every object, on investors satisfaction. All in compliance with current, valid regulations and standards.

Roman Modzelewski (1912-1997) painter, designer and a teacher. Avant-garde creator and artist.

Armchair RM58 is the first product from the collection Roman Modzelewski produced in the company VZOR. RM58 is modern version of Roman's revolutionary design Modyelewski. Handmade in 1958, was among the earliest pieces furniture made of composites material.

One of the earliest examples is made for the permanent exhibition of the Museum Victoria & Albert in London. Thanks to modern technologies, it is today available in matte, soft and classic line.

Compact laminates

COMPACT LAMINATES are composite boards made of 2/3 cellulose and 1/3 phenol and melamine formaldehyde - combined into a composite under high pressure. The material of the plates is non-reactive - chemically inert, resistant to solvents and chemicals for cleaning, resistant to impacts and scratches, reinforced on both sides, decorative, non-corrosive, non-oxidizing, stable, water-resistant, approved for immediate use contact with food, resistant to low and high temperatures and low fuel, non-toxic, does not pollute the environment, does not contain heavy metals, can be recycled.

Easy to maintain, it is ideal for use in interiors where hygiene is required. It can be cleaned with hot water, steam, common disinfectants and cleaning chemicals.

Heaters

The company Star Progetti from Italy designed a special product type of heaters, where as a source of heat they use short-wave infrared lamps. The code heating occurs in traditional heating systems air and heat is lost in space, while IR rays heat only warm-blooded living things and no energy loss.

The heat of the sun's rays
Maximum heating at a minimum price!
Only where and when needed!

- > There is no space heating period with these heating systems - the heat is felt the moment the heater is turned on.
- > High level of savings: over 80% compared to gas heaters.
- > IR lamps are suitable for both indoor and outdoor use.
- > They are used in different sectors: industry, hospitality, household...
- > They do not contain harmful UV rays! Lifetime 5,000 hours!

Without harmful UV radiation
For a pleasant and natural environment
