

WOODEN AND BISTRO CHAIRS

Furniture Catalogue 2022

..... Bistro, traditional & modern wooden chairs

§ Chairs | Bar chairs §

UNIONDRVO

Union Drvo Furniture Manufactory opened in 2015 in Svilajnac, at the address Prilepska 2a. Manufactory covers the area of 3000 square meters, and it is equipped with contemporary machinery for wood processing and upholstery of furniture. The factory employs over 40 expertly skilled workers who are masters of furniture craft.

With opening of our own furniture production, we created possibility that we can adjust all our products to special requirements of architects and designers, especially when it comes to solid wood elements and specific pieces of upholstery furniture.

Tailor-made & custom-made production brought us to the very top of the world furniture scene. Our strength and recognition is in the flexible production everything according to drawings and projects, which gives investors great opportunity of selection of models, dimensions and materials for furniture elements of its catering facility.

We do not reproduce and replicate furniture, we create alchemy visible in interior of Your object.

From day to day we tend to provide our clients top quality, unique design and large selection of new collections of chairs, armchairs, tables and other parts of interior.

Since last Year, by introducing new machines in factory, we enabled large selection of decorative stitches on the upholstered furniture. New sewing machine which we involved in our production in 2018, allows us to apply imagination of our designers and all of Your requests on the upholstered furniture. Using the electronic control of the sewing machine and display for monitoring of work of this machine, we have millimetre precision and we are able to make magic on upholstery. On all our models it is possible to apply decorative stitch You like. Legend of the decorative stitches is included in this catalogue. The second important sewing machine included in our factory from 2018 allows us stitching of harder materials like leather and vinyl. This machine has option for double stitching, so we are able to make decorative stitches such as stitches on baseballs and car seats, which are very popular.

And to make closure, but not be too immodest, through the furniture production we create magic which You incorporate in Your interior.

We invite You to step in our world of magic, looking through the catalogue which consists of furniture collections we produce custom made, and allow You to choose colour of construction, colour and type of fabrics, also details such as decorative buttons, and stitches on upholstery.

Your partner, Union Drvo

In Belgrade, 01.11.2022.
